**(54) PATENT MONITORING SYSTEM, ITS METHOD AND RECORD MEDIUM**

(57)Abstract:

**PROBLEM TO BE SOLVED:** To efficiently execute term management and progress situation management for generating an offer of patent opposition, etc., when grant of a patent occurs in another company patent item.

**SOLUTION:** This system is provided with a monitor item file 11 storing status items concerning the items to monitored, a monitor server 12 detecting the occurrence of the status and a schedule managing server 14. The schedule managing server 14 generates a schedule managing file for schedule management concerning correspondence procedures about the item (for example, the presentation of an offer of patent opposition), stores it in a file storing part 15 and manages the schedule management file.

## LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's  
decision of rejection]

[Date of requesting appeal against examiner's  
decision of rejection]

[Date of extinction of right]
